ARTESSERAE SPLIT FACE 305 X 98MM

Carved from the highly-coveted Dolomite stone – balancing finesse and strength – the Artesserae collection of Elba stone mosaics blends classic typographies with contemporary geometries.

Imported from south-eastern Europe the subtle, natural stone carries a sophisticated palette and has been an Artedomus exclusive for the past decade.

Aesthetically diverse, the Artesserae range compliments the existing Artedomus collection and can be customised upon request.
