

NEW VOLUMES™

Harvest

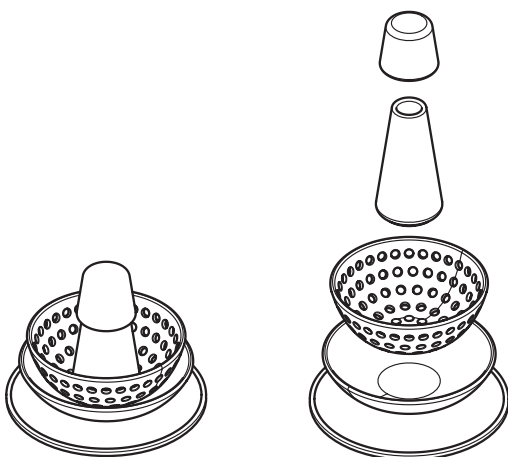

Harvest c/o Megan Morton

This suite will never fall – all the pieces of Harvest are extremely hard-working. When not in service, they fit together perfectly; when they are used, they are single-minded and independently beautiful.

A modular design consisting of five individual pieces that can be combined to create a tabletop sprout planter or used alone or in different combinations as a cake stand, serving plates, a dinner set or colander.

Harvest
350 x 275H
11.5 kg

Please note, dimensions are approximate can vary during the firing process.
